

# PRESS RELEASE

## DEUTZ honored for excellent service

- Engine manufacturer wins BOMAG Supplier Award
- DEUTZ scores highly in the ‘Services & Solutions’ category
- Recognition for outstanding service for business partners and customers

Cologne, September 8, 2022 – DEUTZ is delighted to win this year’s BOMAG Supplier Award in the ‘Services & Solutions’ category. Presented by BOMAG, the global market leader in compaction technology, the award recognizes outstanding supplier performance. DEUTZ won plaudits for the speed of its service delivery, its impressive product availability, the attractive pricing of its spare parts, and its digital DEUTZ Lifecycle Solutions platform, which has been designed to make managing replacement engines easier.

In addition to innovative strength, quality management, intelligent logistics processes, and sophisticated service innovations, a close partnership based on trust is key to a successful supplier relationship. In this regard, the engine company won further praise for the personal, fast, and highly motivated approach of its service employees.

“Customer satisfaction is the top priority at DEUTZ, so we are very proud to receive this award. As a team, we continually strive to enhance our services. We are delivering our services more quickly and efficiently, and in a more digitally integrated manner for our business partners and customers. To the benefit of everyone,” says Flavio Moreira Leal, Director of Sales & Service EMEA at DEUTZ AG.

Every year, the BOMAG Supplier Awards recognize exceptional performance and close collaboration with suppliers in the categories ‘Quality’, ‘Logistics’, ‘Innovation’, ‘Services & Solutions’, and ‘Best of the Best’.

### **About DEUTZ AG**

*DEUTZ AG, a publicly traded company headquartered in Cologne, Germany, is one of the world's leading manufacturers of innovative drive systems. Its core competencies are the development, production, distribution, and servicing of drive solutions in the power range up to 620 kW for off-highway applications. The current portfolio extends from diesel, gas, and hydrogen engines to hybrid and all-electric drives. DEUTZ drives are used in a wide range of applications including construction equipment, agricultural machinery, material handling equipment such as forklift trucks and lifting platforms, commercial vehicles, rail vehicles, and boats used for private or commercial purposes. DEUTZ has around 4,750 employees worldwide and over 800 sales and service partners in more than 130 countries. It generated revenue of around €1.6 billion in 2021.
